¹ Total eliminated vacation positions may not align with those included in Attachment 1 due to rounding.

² Savings per position eliminated are reported by each impacted state entity. Entities may report different saving amounts for the same class title based on their original funding levels for budgeted positions, the inclusion of various salary-driven benefit costs, and other operational practices for each entity.

³ Total associated savings may not align with those included in Attachment 1 for the following reasons: (1) Entities which reported savings under Section 4.12 without position authorities are not included in this attachment; (2) the actual costs of the vacant positions proposed to be eliminated are different from the total amount of savings reported by entities.
